

## ALLIED COUNTRIES SUFFERING FROM FOOD SHORTAGE

France and Italy Restrict Consumption and Britain Moves to Increase Production.

PARIS, Feb. 27.—Restrictions on restaurants were decided upon to-day by the Cabinet.

Menus must not comprise more than two courses, one being meat, and no milk will be served in restaurants after nine o'clock in the morning. If the situation is unimproved two meatless days per week will be ordered.

ROME, Feb. 27.—Bread, rice, fats and sugar cards, meatless days and prohibition of the manufacture of cakes and sweets will be restored March 1, because of the food shortage.

## FRENCH RETREAT BEFORE THE TURKS

LONDON, Feb. 27.—Official despatches say the French forces have succeeded in getting out of Marash, in the Vilayet of Aleppo, Syria, after very hard fighting with the Turks. The French evidently withdrew hastily, as they were compelled to leave their wounded, which will be cared for by the American Red Cross.

A message from the same source confirms the reports of massacres of Armenians in the Marash district, but does not substantiate the statement from Armenian quarters that the number of slaughtered was several thousand.

In the House of Commons yesterday Premier Lloyd George was asked about a report that 20,000 Armenians had already been slaughtered, and that large Turkish forces were menacing Mesina. The Premier replied he had heard nothing to indicate the rumor was true.

The Council of Premiers has decided definitely to award the Smyrna and Adrianople districts of Turkey to Greece for economic exploitation. It was un-

derstood to-day. The Council also decided, it was understood, that Turkish finances will be placed under international control.

We're all teed up for an early season, though we frankly admit that to date the "birds of passage" greatly outnumber the hardy "snowbirds" who perform must stay at home.

What with Pinehurst and other links calling, our Sporting Goods Department sees a right lively demand for the implements of the game.
